

SONOS Web Training

convenient, flexible & profitable!

Sonos Web training is available any Monday or Tuesday, between the hours of 8 AM and 5 PM, and for your convenience, evening sessions are also available

Training generally runs for about an hour, and covers everything from the Digital Music Revolution, to product details, set up, operation, and specific information for the custom channel

Start and end times are up to you. The convenience and flexibility are huge, and after the training . . . so is the profit. Call PCA toll free for info: 800.950.4434

SONOS®

With the Sonos Controller, your customers will have instant access to their entire digital music collection, Internet radio and select music services from almost anywhere - inside or out

Sonos is the first wireless, multi-room digital music system that lets them play digital music all over their house, and control it all from the palm of their hand. With a wireless Sonos Controller in hand, they'll have plug-and-play access to millions of songs - from music services, Internet radio, their personal digital music collection, or all of the above

Call NOW, toll free - for complete training information, time reservation and etc. You'll experience amazing convenience and flexibility with the training, followed soon by the profit

For complete information, or to reserve a time, Call PCA 800.950.4434
